Hollowing Endgrain	Richard Raffan	VHS tape	If you want to turn a lidded box, goblet or vase on a lathe, you need to hollow endgrain. Richard shows you a back-hollowing technique for endgrain using only a gouge and scrapers. Richard gets you started by turning a small bowl. You'll see exactly how the gouges slice the wood, removing waste in seconds, and then how to use scrapers to complete the peocess. In a more challenging box, Richard shows how to control your tools when hollowing deeper forms. Finally, what to do when shapes
